We try as far as possible to utilise the surrounding villages to supply fresh produce to the lodge. This will facilitate empowering the local farmers and support the villages in a continuous and sustainable way.

GUEST AMENITIES:

All guest amenities including shampoo, conditioner, hand and body lotion, foam bath, liquid gel and soaps are sourced from eco-friendly suppliers, who are endorsed by Beauty without Cruelty, and where possible, use organic ingredients which are biodegradable.

WATER SUPPLY:

Water is supplied from our underground borehole, which is safe for human consumption. All effluent and grey water generated by the lodge passes through a purification system known as "The Biorock" - a unique mini-biological plant, that requires no electricity, has no moving parts, therefore needing minimal annual maintenance - returning safe water to the environment.
