# A little bit about Dinaka

---

The annual rains transform the arid desert landscape into a lush profusion of Kalahari vegetation, offering guests a unique insight into the lesser known desert experience.

Situated alongside the Central Kalahari Game Reserve, the focus of activities at Dinaka is exploring the Kalahari experience with wildlife ranging from giraffe to the antelope, small mammals like the honey badger, bat eared fox and porcupine to predators including the Kalahari lion, cheetah, leopard and brown hyena.

Activities include morning and afternoon game drives in open safari vehicles, with afternoon game drives often continuing into the evening. Our window seat guarantee ensures no more than four guests per vehicle when out on game drives. Alternatively, you may get more up close and personal with nature on foot with guided bush walks. Birding is particularly spectacular as Dinaka hosts over 200 different bird species including the Kori Bustard and Crimson Breasted Shrike and a high concentration of Pale Chanting Goshawks.
