## ELEFUN CENTRE AT SABI SABI BUSH LODGE

Which animal is the fastest land mammal?

Which animal is the tallest mammal on earth?

**Immersive. Educational. Interactive. Family.  
Future Generations. Making Memories.**

Welcome to the EleFun Centre at Sabi Sabi Bush Lodge – our “luxury home in the bush” where families are encouraged to re-connect and discover the natural world in the African Bush, making memories and sharing family time together. The wide-open space of this creative environment is where families can immerse themselves into nature, learning about our wild inhabitants... from the smallest of insects to the tallest of mammals. By planting seeds of wonder-filled activities, our aim is to create conservationists of the future and foster a life-long awareness and appreciation of our world.

Exciting, hands-on interactive activities - designed for children between the ages of 4 and 12 years – are guided and supervised by our EleFun team and include subjects such as arts & crafts, bugs & birds, tracks & signs of wildlife – all environmentally sensitive subjects that will fascinate and entertain young minds. And talking about “hands-on” children are invited to “stamp their handprint” on our Memory Wall, completing their name, age and country of residence.

While set itineraries will take place every morning and afternoon, children are welcome to enjoy the facility between formal sessions. Parents and/or guardians can relax and enjoy the incredible safaris, or have a pamper session in the Amani Spa – or even join their children for some fun... you may even learn a thing or two.

There is a flexible programme on offer, dependent on the children’s ages and interests. Although the ever-changing programme already covers all areas of fun learning about the bush it also offers a wide variety of arts and crafts.

## ELEFUN CENTRE AT SABI SABI BUSH LODGE

### FLEXIBLE DAILY PROGRAMME (AGES 4-12)

#### 10:00 – 11:00 OUTDOOR GAMES TIME

Our childcare professionals will introduce the variety of activities that are available at EleFun and show them the suggested activities for the day. There is a safe and spacious outdoor area with a maze, open field to play soccer or enjoy some water sports and jungle gyms.

Children get involved in some outdoor activity after being on an early morning game drive with their parents and get rid of pent-up energy by seeing who can get through the obstacle course in the shortest time!

#### 11:00 – 12:00 – HOBBIES AND CRAFTS

Children will enjoy an arts and crafts session, where boys and girls can enjoy hands-on projects, all relating to nature and the natural world – this could get messy, but they definitely won't be bored. With the focus being on using recycled materials, the children are brought into the conversation on the importance of recycling and how waste affects the natural environment.

#### 12:00 – 13:00 – ADVENTURES WITH NATURE

This is the time for nature related activities. General knowledge quizzes based on African animals and birds and other sounds of the wild. Children will be learning interesting facts about the Sabi Sabi bushveld, tracks and signs of nature and bush survival in a fun and interactive way.

#### 13:00 – 14:00 – CLOSED FOR LUNCH WITH PARENTS OR GUARDIANS

#### 14:00 – 15:00 – NATURE WALK

Weather permitting, a Ranger – or the EleFun Co-ordinator – will lead the children in and around the lodge grounds on a walk or engage them in a talk. Children can put into practice the skills learned in the morning session and use their senses tracking animals, listening out for birds and looking for bugs.

#### EleFun Centre Daily Programme

As we change the EleFun activities daily, this is an example of a daily programme that can be enjoyed by our young guests. All activities are age appropriate based on the number and ages of children that visit the EleFun Centre.

10:00	Explorers Obstacle Course Fun
10:30	Sports
