

SOMALISA SLEEPOUT

Hwange National Park, Zimbabwe

1 August to 30 November

Experience the thrills of an African sunset and sunrise from the Somalisa Sleepout.

Situated on a private concession within Hwange National Park, our sleepout experience, built in a beautiful Leadwood tree is 20 minutes from the Somalisa Main Camp and can accommodate 2 guests at a time.

Available to be booked between August to November, our sleepout allows guests who are staying for 3 nights or longer, to sink into bed watching the burnt orange sunsets and wake to the crisp African sunrise. Spend the night completely off-grid listening to the night-time noises of the bush as you reconnect with nature under a canopy of stars.

This once in a lifetime experience has been built with comfort in front of mind and is equipped with a double bed, mosquito net, hand basin and private toilet. This elevated treehouse is safe and allows magnificent panoramic views of Rays Pan. Ray's Pan started as a small water source, discovered by one of our former guides Ray Ndlovu, and today it is solar pumped and a vital source of water for animals in the surrounding area.

Hwange National Park is a land of contrasts from dense teak and acacia forests to vast open savannah, offering guests an exhibition of raw and diverse Africa. The Park supports over 100 species of animals as well as over 400 species of birds. Zimbabwe is said to have almost 80 000 elephants, and half of those are estimated to live in Hwange National Park, so look out for these frequent visitors at Ray's Pan.

While this experience does seem only for the intrepid explorers, it is something for everybody to enjoy. Rest assured that one of our dedicated guides will be found only a short distance away.
